Our File 582-339
PVP Case

COPY

Dear Dr. Seligman:

We enclose two copies of a draft patent application directed to the invention relating to use of a mixture of PVP and a polyhydric alcohol to secure activated carbon in a filter. Please study the draft carefully and let us have your comments.

As you will recognize, the draft raises a number of questions. Mr. Helferich will be in Richmond on Monday and Tuesday, May 2nd and 3rd, and would like to discuss these with you at that time. There are formal questions to be resolved as well, such as the identity of the inventor or inventors.

Very truly yours,

William H. Vogt III
